

From Chaos to a Connected Experience

WHAT CHANGED

The same equipment, organized into one complete training environment.

EXISTING ASSETS

Treadmill, Tacx trainer, bicycles, TV, tablet and refrigerator retained.

COMFORT

Mini-split climate control, acoustic treatment, layered lighting, audio, refreshment and hydration.

COMPLETE CONNECTED ENVIRONMENT

Cycling and running platforms connect with performance data, lighting, audio, video and temperature control. The athlete can train, monitor progress and adjust the room without interrupting the session.

**AND FROM HERE, YOUR
TRAVEL EXPERIENCE BEGINS.**
